

DIGITAL FILING SYSTEM DEMO

Folder Structure, Naming Convention & Organisation Guide

Prepared by: **Computer Operator / IT Support Staff** | Nibras International School, Dhaka

About This Document

This document demonstrates a professional digital filing system designed for Nibras International School — an English-medium Islamic school in Dhaka offering British, US, and Islamic curricula. It shows a before/after comparison of poor vs. organised file management, a school-specific naming convention guide, and a complete recommended folder structure.

■ SECTION 1: Before vs. After — Why Organisation Matters

✗ BEFORE — Disorganised File Storage

The following represents a typical unmanaged school desktop or shared drive — files dumped with unclear names, duplicates, and no structure:

	File Name	Problem
✗	ahmed result final FINAL(2).xlsx	<i>Student result — version confusion</i>
✗	Copy of Copy of notice.docx	<i>Duplicate notice file</i>
✗	untitled document.pdf	<i>No name, unknown purpose</i>
✗	exam 22 nov questionpaper PRINT.pdf	<i>No subject, inconsistent naming</i>
✗	stafflist new.xlsx	<i>Ambiguous — which year?</i>
✗	IMG_20240305_113245.jpg	<i>Raw phone photo, no context</i>
✗	certificate draft 3 revised.docx	<i>Which student? Which event?</i>

Problems caused by disorganised files:

- Wasted time searching for documents before exams or parent meetings
- Accidental overwriting of important data (e.g., student results)
- Duplicate files creating confusion about which version is correct
- Confidential documents (exam papers, staff contracts) left unsecured
- No way to audit who changed or accessed a file

✓ AFTER — Organised File Storage

After applying the Nibras filing system — every file has a clear name, correct location, and is findable in seconds:

File Name (with path)	Why it Works
-----------------------	--------------

✓	Students/2024-2025/Results/Ahmed_Ali_Grade8_Result_Term1_2024.xlsx	Clear: student, grade, term, year
✓	Admin/Notices/2024-11_ExamSchedule_SecondaryGrades.docx	Date-prefixed, descriptive
✓	Exams/QuestionPapers/2024-11_Math_Grade8_MidTerm_QP.pdf	Subject, grade, type — findable instantly
✓	Staff/Lists/StaffDirectory_2024-2025_Academic.xlsx	Year specified, purpose clear
✓	Media/Events/2024-03-05_AnnualDay_Stage_Photo_001.jpg	ISO date, event name, sequence
✓	Students/Certificates/Hassan_Karim_Grade5_Quran_Completion_2024.docx	Name, grade, achievement, year

Benefits of organised file management:

- Any staff member can find any document within 30 seconds
- No accidental overwrites — date + version in file name prevents this
- Confidential folders can have restricted access permissions set
- Audit trail is clear — file name shows who it belongs to and when created
- Archive folder preserves history without cluttering active folders

SECTION 2: Naming Convention Guide

Standard rules for all digital files at Nibras International School

Core Rules for All File Names:

- Use underscores (_) instead of spaces in file names (e.g., Ahmed_Result not Ahmed Result)
- Always start with YYYY-MM date prefix for any dated document
- Never use: special characters / \ : * ? " < > | in file names
- Use title case for names: Ahmed_Ali not ahmed_ali or AHMED_ALI
- End with version if needed: _v1, _v2, _FINAL — never 'final FINAL copy'

Category	Naming Pattern	Example
Students	YYYY-MM_[StudentName]_[Grade]_[DocType]	2024-11_Ahmed_Ali_Grade8_Result_Term1.pdf
Exams / QPs	YYYY-MM_[Subject]_[Grade]_[ExamType]_QP	2024-11_Math_Grade8_MidTerm_QP.pdf
Notices	YYYY-MM_[Topic]_[Audience]	2024-11_ExamSchedule_AllGrades.docx
Staff	YYYY-YYYY_[Category]_[Detail]	2024-2025_StaffDirectory_Teaching.xlsx
Certificates	[StudentName]_[Grade]_[Achievement]_YYYY	Hassan_Karim_Grade5_QuranCompletion_2024
Media/Photos	YYYY-MM-DD_[Event]_[Description]_[Seq]	2024-03-05_AnnualDay_Stage_001.jpg

SECTION 3: Recommended Folder Structure

Complete school drive layout for Google Drive or school server

Folder / File Path	Purpose
--------------------	---------

Nibras_International_School/	Root school folder
01_Students/	All student-related records
2024-2025/	Current academic year
Results/	Term results by grade
Attendance/	Monthly attendance sheets
Admissions/	Enrollment forms & docs
Certificates/	Achievement certificates
02_Academic/	Teaching & curriculum materials
Exams/	Question papers & answer keys
QuestionPapers/	Per subject, per grade
AnswerKeys/	Confidential — restricted
MarkSheets/	Compiled result sheets
LessonPlans/	Teacher lesson plans by subject
Timetables/	Class & teacher timetables
03_Administration/	School administrative records
Notices/	Official notices & circulars
Circulars/	Parent & staff communications
Meetings/	Minutes & agendas
Finance/	Fee records — restricted
04_Staff/	HR & staff management
Directory/	Staff contact lists
Contracts/	Employment documents — restricted
Attendance/	Staff attendance records
05_IT_Assets/	Technology management
Equipment_Log/	Device inventory & maintenance
Licenses/	Software license records
Backups/	Backup logs & schedules
06_Media/	Photos, videos, graphics
Events/	Annual Day, Sports, Graduations
Islamic_Programs/	Quran competitions, Islamic events
_ARCHIVE/	Old files — preserved, not deleted
2022-2023/	Previous academic year
2023-2024/	Previous academic year

Access & Security Guidelines:

Folder	Who Can Access	Permission Level
01_Students/	Class teachers, admin, principal	Edit for own class; View for others

02_Academic/Question Papers/AnswerKeys/	Principal & exam committee only	<i>Restricted — password protected</i>
03_Administration/Finance/	Admin manager & principal only	<i>Highly restricted</i>
04_Staff/Contracts/	Principal & HR only	<i>Strictly confidential</i>
05_IT_Assets/	IT staff & admin	<i>IT edit; Others view only</i>
06_Media/	All staff	<i>View & upload; No deletion</i>
_ARCHIVE/	Admin & IT only	<i>Read-only — no modification</i>

■ SECTION 4: Implementation Checklist

Steps to migrate from disorganised to organised storage

Step 1	Audit existing files	List all files currently on desktops, shared drives, USB drives
Step 2	Create folder structure	Set up the root folder hierarchy as shown in Section 3
Step 3	Set access permissions	Apply Google Drive sharing rules or server permissions per Section 3 table
Step 4	Rename existing files	Apply naming conventions; move to correct folders
Step 5	Archive old files	Move pre-2023 files to _ARCHIVE folder — do not delete
Step 6	Train staff	Share this guide; conduct 15-minute orientation for all teachers & admin
Step 7	Maintain regularly	IT staff to review quarterly; update archive annually

"Cleanliness is half of faith" — Prophet Muhammad ﷺ

Just as we maintain physical cleanliness, maintaining organised digital records reflects our values of discipline and excellence at Nibras International School.
